Journal of Occupational Medicine
Vol. 35, January – December 1993

INDEX TO PAGES

According to monthly issues January – December

Pages	Month	Pages	Month
1–86	January	645–744	July
87–242	February	745–876	August
243–330	March	877–972	September
331–458	April	973–1072	October
459–542	May	1073–1164	November
543–644	June	1165–1276	December

SUBJECT INDEX

A

Abortion, spontaneous, risk, electronics workers, 381
Absenteeism
  illness/injury-related, worker exercise and, Japan, 995
  illness-related, effects of work site health promotion, 1142
  regular relaxation training impact, hospital cleaning personnel, 1123
ACOEM: *see* American College of Occupational and Environmental Medicine
ADA: *see* Americans with Disabilities Act
Aerospace medicine, occupational medicine training and (letter), 1179
Age, as risk factor, injuries in infantry soldiers, 598
Agriculture
  fatal injuries, American Indians and Alaska natives, 1117
  multiple myeloma mortality, Canada prairie provinces, 557
Airline workers: *see* Aviation industry
Air pollutants, occupational and ambient, asthma related to, nonsmokers, 909
Aliphatic isocyanate, respiratory and ocular symptoms, clinical and immunologic evaluation, 287
American College of Occupational and Environmental Medicine
  committee report, careers in occupational and environmental medicine, 628
  message from the president, 1152
  position statement, national health care reform, 623, 1212
  President's message, 830
  1993 state-of-the-art conference, 829
American Occupational Health Conference, 167
  abstracts of scientific presentations, 427
  list of exhibitors, 439
Americans with Disabilities Act
  impact, insulin-dependent diabetics (OM forum), 551
  personal risk assessment under, 1000
  preemployment drug screening and (letter), 554
Anemia, aplastic, pesticide exposure and, literature review, 1106
Anesthesia, reduction of operating room N_2O contamination during, 1138
Animal caretakers, cyclophosphamide exposure, 47
Animal confinement facility, injury patterns and incidence, 518
Antimony, dermatitis associated with, case reports, 392
Antineoplastic drugs, health care workers exposed to, 57
Asphalt, skin burns caused by, current treatment (OM forum), 354
Asthma
  after exposure to diesel exhaust, railroad workers, 149
  air pollutant-associated, nonsmokers, 909
  aliphatic isocyanate-exposed workers, clinical and immunologic evaluation, 287
  slime mold-associated, research microbiologist, 1231
Automotive workers
  colon and stomach cancer mortality among (letters), 345
  naphtha exposure, renal effects, 617
Aviation industry
  commuter aircraft and air taxis, crash survival in pilots of, 1244
  thorium exposure during tungsten inert gas welding, airline workers, 707

B

Back injury, prevention project, assessment of, 114
Behavior modification, role, work-site weight management program, 800
Benzene, hematologic effects, rubber workers, 776
Benzidine, bladder cancer and, molecular marker field studies, 20
Beryllium disease, screening, ceramics industry, 267
Blood count, benzene-exposed rubber workers, 776
Blood exposure, hepatitis B risk and, firefighters, 1048
Blood markers, role, indicators of hazardous shoulder-neck loads, 404
Book reviews, 75, 225, 317, 360, 533, 633, 733, 865, 959, 1069, 1160, 1257
Brain, atrophy, organic solvent exposure and, 155
Burn, asphalt-associated, current treatment (OM forum), 354
1,3-Butadiene, health hazard assessment, 1089

C

Calcium gluconate, nebulized, hydrofluoric acid inhalation treated by (letter), 470
Cancer
  bladder, molecular marker field studies, benzidine-exposed workers, 20
  colon, risk, X-ray technician with colitis (OM forum), 652
  epidemiology, tribute to Sir Ernest Kennaway (letter), 9
  lung, retrospective exposure assessment, gold miners, 1203
  risk
    after exposure to engine exhaust, 307
    inherited factors and environmental exposures, 34
  risk assessment and management, ethical perspective, 902
Cancer mortality
  cohort study, refinery and petrochemical plant workers, 415
  colon, automotive workers (letters), 345
  hepatobiliary, dinitrotoluene-exposed munitions workers, 291
  male, Canadian Labour Force 10% Sample Study, 408
  multiple myeloma, farm workers, Canada prairie provinces, 557
  prostate, perfluorooctanoic acid-exposed workers, 950
  salt-chemical industry (letter), 9
  stomach, automotive workers (letters), 345
Carcinogenesis, tribute to Sir Ernest Kennaway (letter), 9
Cardiovascular health, impact, workplace physical fitness programs, 510
Carpal tunnel syndrome
  experimental model for (letter), 469
  prevalence, cardiac sonographers, 604
  validation of occupational hand use categories, 1034
Ceramics industry, beryllium disease screening, 267
Cervical spine, headache originating from, relationship between occupation and, 929
Chemical Manufacturers Association, epidemiology guidelines (letter), 97

Chemicals, occupational exposure, academic medical center, 701
Chemical workers
current guidelines for contact lenses (OM forum), 650
life-threatening propionitrile exposure, successful treatment of, 577
Childcare workers, disabling injuries, potential risk factors, 1236
Cholinesterase, testing program, pesticide applicators, 61
Chromate, chronic urticaria after exposure to (letter), 96
Coal tar pitch volatiles, lung function effects, industrial workers, Canada, 1017
Cocaine, urinary concentration, after drinking coca tea (letter), 95
Colitis, ulcerative, increased colon cancer risk, x-ray technician with (OM forum), 652
Computed tomography, cerebral, effect of organic solvent exposure assessed by, 155
Connective tissue, disorder, trichloroethane and (letter), 95
Construction workers, fatal injuries, New Jersey, 1983-1989, 916
Contact lenses, current guidelines, chemical industry (OM forum), 650
Correctional facility, tuberculosis resurgence in (letter), 1178
Cyclophosphamide, animal caretakers exposed to, 47

D

Dermatitis, antimony-associated, case reports, 392
Diabetes, insulin-dependent
ADA impact (OM forum), 551
commercial vehicle driver certification in patients with (OM forum), 465
3,3′-Dichlorobenzidine, bladder cancer and (letter), 892
2,4-Dichlorophenoxyacetic acid, mortality update, chemical workers, 1208
Dictyostelium discoideum, occupational asthma related to, research microbiologist, 1231
Diesel exhaust, asthma associated with, railroad workers, 149
Dinitrotoluene, hepatobiliary cancer mortality linked to, munitions workers, 291
Disability
determination/evaluation of (letter), 655
new psychosocial perspective, 825
Disease, chronic, occupational exposure and, medical inpatients, 161
Draft American National Standard, evaluation of hearing conservation programs by, 568
Drug screening, preemployment
employment outcome prediction and (letters), 983
epidemiologic issues (letters), 8
large hospital system, 71
legality under ADA (letter), 554
Dysmenorrhea, associated factors, poultry slaughterhouse workers, 493

E

Editorials
Accepting the environmental medicine challenge, 265
Medical surveillance: extent and effectiveness?, 698
Risk communication and occupational medicine, 18
Electrical workers, polychlorinated biphenyl exposure, clinical findings, 136
Electrocution, by hand-held power tools, prevention technique, United Kingdom (letters), 754
Electromyogram, patterns, sincere vs. feigned grip exertions, 788
Electronics workers, spontaneous abortion risk, 381
Employee health, effects of employee theft on, 783
Employer, illness reports, occupational disease surveillance by, 581
Encephalopathy, toxic, 1,1,1-trichloroethane-associated (letter), 554
Engine exhaust, cancer risk related to, 307
Environment, role, cancer risk, 34
Environmental medicine
international issues in, 260, 265 (editorial)
occupational physicians and (letter), 752
occupational physician role, 251, 265 (editorial)
Epidemiologist, role in industry, 485
Ergonomics
OSHA guidelines, 42
role, occupational medicine, 587
ERGOS work simulator, validity, compared with conventional functional capacity techniques, 759
Exercise
frequency, work site health promotion effect, 1147
illness/injury-related absenteeism and, manufacturing companies, Japan, 995
Eye, laser-associated injuries, research laboratories, 369
Eyewear, disposable protective, for health care providers, 1043

F

Family member, disabled, correlation with subsequent patient disability, 825
Fiber, synthetic mineral, animal exposure studies (letters), 1173
Firefighters, blood exposure and hepatitis B risk, 1048
First aid training, cost of compliance with blood-borne pathogen standard (OM forum), 749
Fishing industry, fatal injuries, American Indians and Alaska natives, 1117
Fluorides, lung function effects, industrial workers, Canada, 1017
Force, patterns, sincere vs. feigned grip exertions, 788
Forestry, fatal injuries, American Indians and Alaska natives, 1117

G

Genetics, role, cancer risk, 34
Gold miners, exposure assessment, 1203
Grip exertion, sincere vs. feigned, consistency with repeated testing, 788

H

Hand
chronic disorders, multidisciplinary rehabilitation, 396
low-pressure injection injury, necrosis after (letter), 655
occupational use, validation of categories for, 1034
unilateral fracture, returning to work after, 132
Headache, of cervical origin, relationship between occupation and, 929
Health care
medical services utilization, effect of self-care brochures, 422
reform, ACOEM position statement, 623, 1212
Health care workers: *see also* Hospital personnel
back injury prevention program, assessment of, 114
cardiac sonographers, carpal tunnel syndrome prevalence among, 604
disposable protective eyewear for, 1043
exposure to antineoplastic agents, 57
occupational chemical exposure, academic medical center, 701
preemployment drug screening, 71
Health climate, measures of, 812
Health hazard appraisal, health risks, responders and nonresponders, 28
Health insurance, claims costs, health risks and, 28
Health promotion, work-site
exercise frequency and dropout rate, 1147
illness-related absenteeism and, 1142
integrative perspective on, 1221
mobile programs for, 922
health practices before and after, 297
Health risk, reduction, by mobile work site health promotion programs, 922
Healthy worker effect
appropriate terminology for (letter), 890
renal disease in lead workers, 387
Hearing, conservation programs, evaluation, Draft American National Standard method, 568
Heat stress, helicopter pilot error related to, 720
Hematuria, printing employees, 1055
Hepatitis B
immunization, immunity testing after (OM forum), 1081
risk, firefighters exposed to blood, 1048
Herbicide, 2,4-dichlorophenoxyacetic acid, mortality update, chemical workers, 1208
Hormone, male reproductive, measurement, for field studies, 574
Hospital personnel
chemical exposures, 701
cleaning staff, regular relaxation training effect, 1123
operating room, reduction of N_2O contamination, 1138
sharps disposal system (letters), 313
Human immunodeficiency virus
occupational transmission, protective eyewear for health care providers, 1043
politics of regulating risk (commentary), 897
Hydrofluoric acid, inhalation, nebulized calcium gluconate treatment (letter), 470

I

Impairment rating, hand-arm vibration syndrome, 936
Industry, epidemiologic research in, 485

Infertility, outcome, MRI technologists, 1191
Inhalation, man-made vitreous fibers, animal studies, 101
Injury
  disabling, risk factors, childcare workers, 1236
  cumulative, risk, supermarket checkers, 805
  fatal
    American Indians and Alaska natives, 1117
    commuter aircraft and air taxi pilots, 1244
  increased risk among Hispanic women, 712
  infantry soldiers, potential risk factors, 598
  laser-associated, research laboratories, 369
  musculoskeletal, reduction by on-site physical therapy program, 1011
  patterns and incidence, animal confinement facility, 518
  repetitive stress, keyboard operators, 522, 1084 (letters)
  soft-tissue, keyboard operators, 522, 1084 (letters)
  unilateral hand fracture, returning to work after, 132
In Memory
  James Sterner, MD, 483
  John W Hardy, MD, 483
  Leonard John Goldwater, MD, 365
  Robert A. Kehoe, MD, 367
International Conference on Occupational Disorders of the Upper Extremities, review of (letter), 553

J

Jamar grip test, sincere vs. feigned grip exertions, consistency of, 788
Job placement, personal risk assessment under ADA, 1000
Jute mill worker, occupational carcinoma of the scrotum (letter), 888

K

Keyboard operators, soft-tissue injuries, 522, 1084 (letters)
Kidney, effects of naphtha exposure, automotive workers, 617
Kidney disease, healthy worker effect, lead workers, 387

L

Lead exposure, appropriate treatment regimen (OM forum), 884
Lead workers, healthy worker effect, cross-sectional study, 387
Letters to the editor, 8, 95, 313, 345, 469, 553, 655, 752, 888, 983, 1084, 1173
Liver, elevated enzymes, restrictions on employees with (OM forum), 1082
Low back pain
  B-scan ultrasonography role in prediction of, 1250
  occupational risk factors, sedentary workers, 1213
Lung, effect of man-made vitreous fibers, animal studies, 101
Lung function, industrial workers, phosphorus rock refinery, Canada, 1017

M

Magnetic resonance imaging, infertility and pregnancy outcome among technologists, 1191
Malingerers, consistency of sincere vs. feigned grip exertions, 788
Medical insurance, benefits utilization, mental and physical health claimants, 275
Medical services, utilization, effect of self-care brochures, 422
Medical surveillance
  benefits as perceived by respondents, OSHA survey, 670, 698 (editorial)
  prevalence, OSHA survey, 659, 698 (editorial)
Menstrual cycle, dysmenorrhea among poultry slaughterhouse workers, 493
Mental health
  benefits utilization, physical health benefits utilization and, 275
  problems, occupational health care versus primary care, 53
Mercury vapor, inhalation, biological monitoring (OM forum), 750
Methylene chloride, chronic exposure, evaluation of, 282
Military personnel
  heat stress-related helicopter pilot error, 720
  injury incidence, potential risk factors, 598
  nuclear submariners, mortality study, 501
Mortality
  cancer: *see* Cancer mortality
  construction industry, epidemiologic analysis, 916
  nuclear submariners, comparison, US male population, 501
  occupational, American Indians and Alaska natives, 1117
  perfluorooctanoic acid-related, 950
  reduced, rubber plant workers, 611
  update, herbicide-exposed chemical workers, 1208
Motor vehicles, oxygenated fuels for, potential health effects (OM forum), 980
MRI: *see* Magnetic resonance imaging
Multiple chemical sensitivity, neuropsychiatric disorders and (letters), 315
Multiple myeloma, mortality, prairie provinces of Canada, 557
Munitions workers, dinitrotoluene-exposed, hepatobiliary cancer mortality among, 291

N

Naphtha, renal effects, automotive workers, 617
Neck-shoulder tension, regular relaxation training impact, hospital cleaning personnel, 1123
Necrosis, after low-pressure injection injury, hand (letter), 655
Needlestick injury, hospital sharps disposal system and (letters), 313
Neurologic function, assessment by postural sway testing, pesticide applicators, 1196
New products, 83, 237, 454, 467, 641, 741, 874, 969, 1068, 1155, 1264
N_2O contamination, reduction by anesthesia mask gas-scavenging system, operating room personnel, 1138
Nonsmoker, adult-onset asthma, environmental tobacco smoke role, 909
Nurses, exposure to antineoplastic agents, 57

O

Occupational exposure, role, chronic disease development, medical inpatients, 161
Occupational health, system for quality management, 1096, 1103
Occupational injury: *see* Injury
Occupational medicine
  accreditation policies in, 562
  board-certified physicians shortage (letter), 350
  disease surveillance, employer illness reports used for, 581
  field studies, measuring male reproductive hormones for, 574
  human factors in, 587
  mental health problems, 53
  N-of-one clinical trials, 375
  physician training, off-campus approach (letter), 1177
  residency, institutional placement (letter), 889
  training program surveys, 768
  unqualified specialists (letters), 11, 1179
Occupational physician
  role
    environmental medicine, 251, 265 (editorial)
    risk assessment, communication, and management, 13, 18 (editorial)
Occupational Safety and Health Administration
  cost of compliance with blood-borne pathogen standard (OM forum), 749
  occupational medical surveillance prevalence survey, 659
  regulation of ergonomic health, 42
OM Forum, 354, 465, 551, 650, 749, 884, 981, 980, 1081
Organochlorine, association with aplastic anemia, literature review, 1106
Organophosphate, association with aplastic anemia, literature review, 1106
OSHA: *see* Occupational Safety and Health Administration

P

Paranoia, workplace violence and, 127
People and events, 77, 228, 319, 447, 536, 636, 736, 868, 961, 1063, 1157, 1259
Pesticide
  association with aplastic anemia, literature review, 1106
  cholinesterase testing program for workers, 61
  occupational or residential exposure, pregnancy outcome after, 943
  postural stability assessments in applicators of, 1196
Petrochemical plant workers, cohort mortality study, 415
Pharmacists, exposure to antineoplastic agents, 57
Phosphoric acid, lung function effects, industrial workers, Canada, 1017
Phosphorus pentoxide, lung function effects, industrial workers, Canada, 1017
Physical activity, occupational, questionnaire accuracy, 1017

Physical fitness
as risk factor, injuries in infantry soldiers, 598
workplace programs, impact on cardiovascular risks, 510
Physical therapy, on-site industrial program, growth and cost benefits, 1011
Pilot, crash survival, commuter aircraft and air taxi crashes, 1244
Pneumonitis, hypersensitivity, aliphatic isocyanate-exposed workers, 287
Polychlorinated biphenyl, clinical findings of exposed workers, 136
Posture, stability assessments, pesticide applicators, 1196
Pregnancy outcome
after pesticide exposure, 943
MRI technologists, 1191
Printing employees, hematuria among, 1055
Propionitrile, life-threatening exposure, treatment of, 577
Psychiatric disorder, in chemically sensitive patients (letters), 315

Q

Questionnaire, occupational physical activity, validity and reliability of, 1017

R

Rabies, preexposure prophylaxis (OM forum), 884
Radiation, electromagnetic, effect on fertility and pregnancy outcome, MRI technologists, 1191
Railroad workers, asthma related to diesel exhaust, case reports, 149
Refinery workers, cohort mortality study, 415
Relaxation training, impact on neck-shoulder tension, hospital cleaning personnel, 1123
Research laboratories, laser hazards, 369
Rhinoconjunctivitis, slime mold-associated, research microbiologist, 1231
Risk, characterization, communication, and management, occupational physician role, 13
Rubber plant workers
hematologic effects of benzene, 776
reduced mortality among, 611

S

Salt-chemical industry, cancer mortality (letter), 9
Scrotum, primary cutaneous carcinoma of, jute mill worker (letter), 888
Sedentary work, as risk factor for low back pain, 1213
Selected reviews from the literature, 5, 93, 244, 341, 472, 555, 653, 757, 886, 993, 1087, 1185
Shift workers, on-call, effect on health and social well-being, 1131
Shoulder-neck, hazardous loads, biochemical indicators, light industry, 404
Sick building syndrome, inappropriate terminology (letter), 752
Silicone, connective tissue disease and (letter), 95
Silicosis, after exposure to silica flour and industrial sand, 716
Skin
asphalt-associated burns, current treatment (OM forum), 354
polychlorinated biphenyl effects, 136
Slaughterhouse workers, dysmenorrhea among, 493
Slime mold, occupational asthma associated with, research microbiologist, 1231
Smoking cessation, workplace promotion, intervention study results, 121
Social well-being, on-call shift workers, French gas and electric workers, 1131
Sodium nitrate/sodium thiosulfate, propionitrile exposure treated by, 577
Solvent, organic, brain atrophy and, cerebral computed tomography, 155
Sound energy, wound pain increased by (OM forum), 358
Stress, metabolic, biochemical indicators of, light industry, 404
Styrene, health hazard assessment, 1089
Supermarket checkers, cumulative trauma risk, 805

T

Techno-stress, neurobiology of (letters), 315
Thorium, exposure during tungsten inert gas welding, airline workers, 707
Tobacco smoke, environmental, role, adult-onset asthma in nonsmokers, 909
Toxic substance, low pressure injury involving, necrosis after (letter), 655
Trauma: *see* Injury
Trichloroethane
connective tissue disorders and (letter), 95
toxic encephalopathy due to (letter), 554
Tuberculosis, skin test reactivity, prevalence of (letter), 1178

U

Ultrasonography, B-scan, lumbar spinal canal, as predictor of back pain complaints, 1250
Upper extremity
chronic disorders, multidisciplinary rehabilitation, 396
cumulative trauma disorders, supermarket checkers, 805
Urinalysis, predictive value of hematuria, printing employees, 1055
Urticaria, chromate-associated (letter), 96

V

Vaccination, recommendations, rabies-endemic area (OM forum), 884
Vibration syndrome, hand-arm, assessment guide, 936
Video display terminals, skin complaints related to (letters), 315
Violence, potential, assessment, paranoid worker, 127
Vitreous fibers, man-made, chronic animal inhalation studies, 101
Vocation, evaluation program, ERGOS work simulator versus conventional functional capacity evaluation techniques, 759

W

Weight management, work-site behavior modification program for, 800
Welders, thorium exposure by, airline workers, 707
Women
occupational injury risk among Hispanics, 712
pregnancy outcome
after pesticide exposure, 943
MRI technologists, 1191
spontaneous abortion risk, electronics industry, 381
Wound pain, sound energy effect (OM forum), 358
Wrist, chronic disorders, multidisciplinary rehabilitation, 396

X

X-ray technician, colon cancer risk (OM forum), 652
